Apple iOS, Android, PC, Adobe Design Suite (Photoshop, Illustrator, InDesign, etc), Sketch, Invision, Proto.io, SolidWorks, Marval, Framer, KeyNote, iMovie, Word, PowerPoint, Excel, Sketchup, HTML5, CSS, Basic Processing

## Interests

Kayaking, paddle boarding, hiking, roadtrips & traveling, cooking & BBQing, family & friends, working on my project car, new technology

## Experience

### Kaiser Permanente UI/UX Designer | Pasadena, CA | Sep 2017 - Present

I contribute to a wide variety of interactive media projects across every UX team / platform for Kaiser. That includes working closely with the product teams to gather project requirements and limitations, collaborating with developers, and the design team to create and build low-fi to high-fi UI/UX comps for web and mobile devices.

### CBS UI/UX Designer | Burbank, CA | April 2016 - Aug 2017

As an interaction designer, I contributed to a wide variety of interactive media projects for CBS television, including working closely with the product teams on user-testing, collaborating with developers to create user-flows & prototypes, and the design team to create low-fi to high-fi UI/UX comps for web, mobile and OTT platforms.

- Use of scrum (agile) for UI/UX projects on web, mobile, and OTT platforms
- Solid understanding of various premium platforms (Apple, Android, ROKU, XBOX, PlayStation, Windows, Amazon, etc.) and our competing brands
- Lead user-testing team by creating prototypes (Proto.io, Framer, InVision, Marval), conducted user-testing, created and presented finding reports for top company stakeholders
- Strong communication, collaboration, negotiation and interpersonal skills
- Worked in a fast-paced, agile environment with strict attention to detail
- Brought good energy and thrived in a team-environment and independently
- Brainstormed, created and communicated new forward-thinking interactive concepts for the CBS and CBS All Access brands
- Developed interactive design solutions and lead projects from start to finish
- Helped drive and surface design team process improvements

### Honda R&D UI/UX Intern | Torrance, CA | Sep - Dec 2015

UI/UX for the Honda and Acura brand. Worked on research, development, proposals, usability-testing, prototyping, and final interfaces for the new Acura Precision Concept, which debuted in January 2016 at NAIAS.

### CBS UI/UX Intern | Burbank, CA | May - July 2015

UI/UX for CBS's various digital platforms. Worked on the CBS Android TV and Apple TV apps which debuted to the public in January 2016. Worked in a fast-paced, team-oriented environment with strict deadlines.

## Learning Opportunities

### Jaguar / Land Rover | Art Center | 2015

Designed new technology systems and interfaces for future vehicles

### Vans Shoe Company | Art Center | 2014

Designed and built sustainable new footwear using eco-materials only

### ACCD DesignStorm: Sherwin Williams | Art Center | 2014

Brainstormed conceptual ways of attracting an all-new customer base

### Dell Computers | Art Center | 2014

Designed and built futuristic new electronic products and interfaces

### ACCD DesignStorm: SHE | Art Center | 2014

Designed new ways of using banana fibers for feminine hygiene in Africa

### Ford Motor Company | Art Center | 2014

Designed and built full-size vehicle interior concepts and interfaces

### CA Metal Plating Association | Art Center | 2013

Brainstormed new ways metal plating can be used in everyday products
